

Omar Mahmoud

Software Engineer

om0234445@gmail.com www.linkedin.com/in/omarmahmoud97 +201123238038

6 October, Giza, Egypt <https://github.com/OmarFawzy19>

Summary

Software Engineer interested in MERN Stack development, with hands-on experience building full-stack web applications. Skilled in MongoDB, Express, React, and Node.js, and experienced in developing RESTful APIs and database-driven systems. Passionate about clean code, problem-solving, and continuous learning.

Education

B.Sc. in Information Technology & Artificial Intelligence, Misr University for Science and Technology (MUST) (3.74 / 4.00) In Progress

Experience

MERN Stack Trainee (React) – Digital Egypt Pioneers Initiative (DEPI) 2025-11-28 - Present

- Training in front-end development using **React** as part of the MERN Stack
- Built dynamic user interfaces using component-based architecture
- Worked with state management and reusable components

Back-End Developer Trainee (Node.js) – Route Academy 2025-04-21 - 2025-11-28

- Back-end development training focused on **Node.js** and **Express**
- Built RESTful APIs and worked with **MongoDB** and **SQL databases**
- Implemented authentication, authorization, and API testing
- Applied clean code principles and best practices

Full Stack Developer Intern – Telecom Egypt (Training & Development Sector) 2024-07-15 - 2024-11-18

- Developed full-stack applications covering authentication and CRUD operations
- Built responsive user interfaces using **HTML, CSS, and JavaScript**
- Collaborated using **Git** and followed clean coding standards

Courses & Certifications

- **MERN Stack Development Bootcamp** – Udemy | 2025
- **Artificial Intelligence Certificate** – Huawei ICT Academy | 2024

Skills

Soft Skills:

Self-motivated, attention to detail, problem solving, critical thinking, communication skills, teamwork, fast learner.

Technical Skills:

JavaScript (ES6+), Node.js, Express.js, RESTful APIs, MongoDB, MySQL, SQL, authentication & authorization, Git, GitHub, HTML5, CSS3, Postman.

Projects

Social App (Backend)

2025-05-01 - 2025-06-01

- Developed a backend social media application using **Node.js** and **Express**
- Implemented RESTful APIs for user authentication, posts, likes, and comments
- Used **MongoDB** for data storage

Sarahah App (Backend)

2025-06-01 - 2025-07-01

- Built an anonymous messaging backend using **Node.js** and **Express**
- Implemented user registration, anonymous message handling, and secure APIs
- Used **MongoDB** for data persistence

Blog System (Backend)

2025-08-01 - 2025-09-01

- Created a RESTful blog backend using **Node.js**, **Express**, and **MySQL**
- Implemented authentication and CRUD operations for posts and comments
- Performed API testing using **Postman**

Weather Web Application

2024-10-01 - 2024-10-05

- Built a web-based weather application using **JavaScript**, **HTML**, and **CSS**
- Integrated a third-party weather API to display real-time weather data

Agricultural Mobile Robot (Cyber Tesla)

2025-09-20 - 2026-01-01

- Developed a mobile agricultural robot using **ESP32** and a robotic arm
- Implemented autonomous line-following and encoder-based motor control
- Enabled manual arm control via Bluetooth using a PS4 controller
- Worked on embedded programming (**C/C++**), wiring, and sensor integration
